Contents

World List Abbreviation: *J. Biogeogr.*

Volume 28 Number 1 January 2001

Guest Editorial 1

M. G. P. van Veller and D. R. Brooks: When simplicity is not parsimonious: *a priori* and *a posteriori* methods in historical biogeography 1

Guest Editorial 2

M. Salomon: Evolutionary biogeography and speciation: essay on a synthesis 13

Editorial Book Review

P. Stott: *Abraham Lincoln's DNA and other adventures in genetics* by P. R. Reilly 29

Aspects of aquatic biogeography: from algae to tufa

J. Weckström and A. Korhola: Patterns in the distribution, composition and diversity of diatom assemblages in relation to ecoclimatic factors in Arctic Lapland 31

Ş. Procheş and D. J. Marshall: Global distribution patterns of non-halacarid marine intertidal mites: implications for their origins in marine habitats 47

G. P. Wallis, K. F. Judge, J. Bland, J. M. Waters and T. M. Berra: Genetic diversity in New Zealand *Galaxias vulgaris sensu lato* (Teleostei: Osmeriformes: Galaxiidae): a test of a biogeographic hypothesis 59

J. Heino: Regional gradient analysis of freshwater biota: do similar patterns exist among multiple taxonomic groups? 69

R. A. Meyrick and R. C. Preece: Molluscan successsions from two Holocene tufas near Northampton, English Midlands 77

Dispersal, vicariance and turnover

G. F. Estabrook: Vicariance or dispersal: the use of natural historical data to test competing hypotheses of disjunction on the Tyrrhenian coast 95

S. Johansen and H. Hytteborn: A contribution to the discussion of biota dispersal with drift ice and driftwood in the North Atlantic 105

W. J. Bond, K.-A. Smythe and D. A. Balfour: *Acacia* species turnover in space and time in an African savanna 117

T. Magura, V. Ködöböcz and B. Tóthmérész: Effects of habitat fragmentation on carabids in forest patches 129

D. F. Sax: Latitudinal gradients and geographic ranges of exotic species: implications for biogeography 139

Book Reviews 151

Volume 28 Number 2 February 2001

Special Issue

Historical biogeography and patterns of diversity

M. D. Crisp: Historical biogeography and patterns of diversity in plants, algae and fungi: introduction 153

J. V. Crisci: The voice of historical biogeography 157

H. P. Linder: Plant diversity and endemism in sub-Saharan tropical Africa 169

M. D. Crisp, S. Laffan, H. P. Linder and A. Monro: Endemism in the Australian flora 183

M. S. McGlone, R. P. Duncan and P. B. Heenan: Endemism, species selection and the origin and distribution of the vascular plant flora of New Zealand 199

H. Turner, P. Hovenkamp and P. C. van Welzen: Biogeography of Southeast Asia and the West Pacific 217

D. S. Hibbett: Shiitake mushrooms and molecular clocks: historical biogeography of *Lentinula* 231

S. C. Lindstrom: The Bering Strait connection: dispersal and speciation in boreal macroalgae 243

A. J. Shaw: Biogeographic patterns and cryptic speciation in bryophytes 253

P. G. Wolf, H. Schneider and T. A. Ranker: Geographic distributions of homosporous ferns: does dispersal obscure evidence of vicariance? 263

G. M. Mueller, Q.-X. Wu, Y.-Q. Huang, S.-Y. Guo, R. Aldana-Gomez and R. Vilgalys: Assessing biogeographic relationships between North American and Chinese macrofungi 271

Book Reviews 283

Volume 28 Number 3 March 2001

Guest Editorial

D. M. Wilkinson: What is the upper size limit for cosmopolitan distribution in free-living microorganisms? 285

Aspects of Australian biogeography

J. Fischer, D. B. Lindenmayer, H. A. Nix, J. L. Stein and J. A. Stein: Climate and animal distribution: a climatic analysis of the Australian marsupial *Trichosurus caninus* 293

K. J. Allen, E. R. Cook, R. J. Francey and K. Michael: The climatic response of *Phyllocladus aspleniifolius* (Labill.) Hook. f in Tasmania 305

D. S. Falster, B. R. Murray and B. J. Lepschi: Linking abundance, occupancy and spatial structure: an empirical test of a neutral model in an open-forest woody plant community in eastern Australia 317

D. Yibarbuk, P. J. Whitehead, J. Russell-Smith, D. Jackson, C. Godjuwa, A. Fisher, P. Cooke, D. Choquenot and D. M. J. S. Bowman: Fire ecology and Aboriginal land management in central Arnhem Land, northern Australia: a tradition of ecosystem management 325

Special Paper

D. R. Brooks, M. G. P. van Veller and D. A. McLennan: How to do BPA, really 345

Aspects of zoogeography

D. K. A. Barnes and S. De Grave: Ecological biogeography of southern polar encrusting faunas 359

M. C. Christman and D. C. Culver: The relationship between cave biodiversity and available habitat 367

E. Virgós: Role of isolation and habitat quality in shaping species abundance: a test with badgers (*Meles meles* L.) in a gradient of forest fragmentation 381

S. Serneels and E. F. Lambin: Impact of land-use changes on the wildebeest migration in the northern part of the Serengeti–Mara ecosystem 391

Book Reviews 409

Volume 28 Number 4 April 2001

Guest Editorial

J. R. Grehan: Panbiogeography from tracks to ocean basins: evolving perspectives 413

Scale, size and species richness

M. V. Lomolino and M. D. Weiser: Towards a more general species–area relationship: diversity on all islands, great and small 431

Y. F. Wiersma and T. D. Nudds: Comparison of methods to estimate historic species richness of mammals for tests of faunal relaxation in Canadian parks 447

R. J. Whittaker, K. J. Willis and R. Field: Scale and species richness: towards a general, hierarchical theory of species diversity 453

M. A. Zacharias and J.C. Roff: Explanations of patterns of intertidal diversity at regional scales 471

K. Roy and K. K. Martien: Latitudinal distribution of body size in north-eastern Pacific marine bivalves 485

Special Paper

M. Bisconti, W. Landini, G. Bianucci, G. Cantalamessa, G. Carnevale, L. Ragaini and G. Valleri: Biogeographic relationships of the Galapagos terrestrial biota: parsimony analyses of endemicity based on reptiles, land birds and *Scalesia* land plants 495

Biogeographic regions

C. B. Cox: The biogeographic regions reconsidered 511

H. Qian: Floristic analysis of vascular plant genera of North America north of Mexico: spatial patterning of phytogeography 525

C. Chiappy-Jhones, V. Rico-Gray, L. Gama and L. Giddings: Floristic affinities between the Yucatán Peninsula and some karstic areas of Cuba 535

Correspondence

R. Craw: A cladistic biogeographic analysis of New Zealand land mollusca: where is the evidence? 543

Book Reviews 547

Volume 28 Number 5 May 2001

Guest Editorial

D. M. J. S. Bowman: Future eating and country keeping: what role has environmental history in the management of biodiversity? 549

A *potpourri* of plant geography

N. W. Owen, M. Kent and M. P. Dale: Spatial and temporal variability in seed dynamics of machair sand dune plant communities, the Outer Hebrides, Scotland 565

P. Bannister and A. Polwart: The frost resistance of ericoid heath plants in the British Isles in relation to their biogeography 589

S. Mihulka and P. Pyšek: Invasion history of *Oenothera* congeners in Europe: a comparative study of spreading rates in the last 200 years 597

M. Kessler, B. S. Parris and E. Kessler: A comparison of the tropical montane pteridophyte floras of Mount Kinabalu, Borneo, and Parque Nacional Carrasco, Bolivia 611

Bees, beetles and birds

J. C. Brown and C. Albrecht: The effect of tropical deforestation on stingless bees of the genus *Melipona* (Insecta: Hymenoptera: Apidae: Meliponini) in central Rondonia, Brazil 623

J. J. Morrone and J. Márquez: Halffter's Mexican Transition Zone, beetle generalized tracks, and geographical homology 635

T. W. Gillespie and H. Walter: Distribution of bird species richness at a regional scale in tropical dry forest of Central America 651

P. Davidar, K. Yoganand and T. Ganesh: Distribution of forest birds in the Andaman islands: importance of key habitats 663

Correspondence

Frank A. von Hippel: Evolution not all at sea 673

Book Review 675

Short Notice 676

Volume 28 Number 6 June 2001

Guest Editorial

S. Trudgill: Psychobiogeography: meanings of nature and motivations for a democratized conservation ethic 677

Aquatic animals, both salty and fresh

W. S. Grant and R. W. Leslie: Inter-ocean dispersal is an important mechanism in the zoogeography of hakes (Pisces: *Merluccius* spp.) 699

M. N. Dawson: Phylogeography in coastal marine animals: a solution from California? 723

R. Poulin: Another look at the richness of helminth communities in tropical freshwater fish 737

M. R. Frogley, H. I. Griffiths and T. H. E. Heaton: Historical biogeography and Late Quaternary environmental change of Lake Pamvotis, Ioannina (north-western Greece): evidence from ostracods 745

Special Paper

D. R. Brooks and D. A. McLennan: A comparison of a discovery-based and an event-based method of historical biogeography 757

On plant dispersal

S. D. Wright, C. G. Yong, S. R. Wichman, J. W. Dawson and R. C. Gardner: Stepping stones to Hawaii: a trans-equatorial dispersal pathway for *Metrosideros* (Myrtaceae) inferred from nrDNA (ITS + ETS) 769

J. C. Trejo-Torres and J. D. Ackerman: Biogeography of the Antilles based on a parsimony analysis of orchid distributions 775

R. J. Pakeman: Plant migration rates and seed dispersal mechanisms 795

H. Jacquemyn, J. Butaye and M. Hermy: Forest plant species richness in small, fragmented mixed deciduous forest patches: the role of area, time and dispersal limitation 801

Book Reviews 813

Short Notice 817

Notice 818

Volume 28 Number 7 July 2001

Guest Editorial

B. S. Arbogast and G. J. Kenagy: Comparative phylogeography as an integrative approach to historical biogeography 819

Special Paper

M. Williamson, K. J. Gaston and W. M. Lonsdale: The species–area relationship does not have an asymptote! 827

Fauna from fish to fowl

J.-C. Joyeux, S. R. Floeter, C. E. L. Ferreira and J. L. Gasparini: Biogeography of tropical reef fishes: the South Atlantic puzzle 831

P. Tattersfield, C. M. Warui, M. B. Seddon and J. W. Kiringe: Land-snail faunas of afromontane forests of Mount Kenya, Kenya: ecology, diversity and distribution patterns 843

R. F. Inger and H. K. Voris: The biogeographical relations of the frogs and snakes of Sundaland 863

M. Heads: Birds of paradise, biogeography and ecology in New Guinea: a review 893

T. M. Blackburn and R. P. Duncan: Establishment patterns of exotic birds are constrained by non-random patterns in introduction 927

Book Reviews 941

Volume 28 Number 8 August 2001

Special Paper

N. Manlius: The ostrich in Egypt: past and present 945

Vegetation: fire, flood, climate and communities

R. M. Beaty and A. H. Taylor: Spatial and temporal variation of fire regimes in a mixed conifer forest landscape, Southern Cascades, California, USA 955

J. G. Masek: Stability of boreal forest stands during recent climate change: evidence from Landsat satellite imagery 967

J. F. Silva, A. Zambrano and M. R. Fariñas: Increase in the woody component of seasonal savannas under different fire regimes in Calabozo, Venezuela 977

G. Sarmiento and M. Pinillos: Patterns and processes in a seasonally flooded tropical plain: the Apure Llanos, Venezuela 985

M. M. Paez, F. Schäbitz and S. Stutz: Modern pollen–vegetation and isopoll maps in southern Argentina 997

G. R. Miller and R. P. Cummins: Geographic variation in seed-setting by heather (*Calluna vulgaris* (L.) Hull) in the Scottish Highlands 1023

R. G. M. Hofstede, K. J. M. Dickinson and A. F. Mark: Distribution, abundance and biomass of epiphyte-lianoid communities in a New Zealand lowland *Nothofagus*-podocarp temperate rain forest: tropical comparisons 1033

Book Reviews 1051

Volume 28 Number 9 September 2001

Animal distributions: from fish to frameworks

P. J. Unmack: Biogeography of Australian freshwater fishes 1053

M. Vences, J. Freyhof, R. Sonnenberg, J. Kosuch and M. Veith: Reconciling fossils and molecules: Cenozoic divergence of cichlid fishes and the biogeography of Madagascar 1091

D. A. Craig, D. C. Currie and D. A. Joy: Geographical history of the central-western Pacific black fly subgenus *Inseliellum* (Diptera: Simuliidae: *Simulium*) based on a reconstructed phylogeny of the species, hot-spot archipelagoes and hydrological considerations 1101

T. Schmitt and A. Seitz: Allozyme variation in *Polyommatus coridon* (Lepidoptera: Lycaenidae): identification of ice-age refugia and reconstruction of post-glacial expansion 1129

M. Nogales, F. M. Medina, V. Quilis and M. Gonzáles-Rodríguez: Ecological and biogeographical implications of Yellow-Legged Gulls (*Larus cachinnans* Pallas) as seed dispersers of *Rubia fruticosa* Ait. (Rubiaceae) in the Canary Islands 1137

B. G. Mackey and D. B. Lindenmayer: Towards a hierarchical framework for modelling the spatial distribution of animals 1147

Book Reviews 1167

Volume 28 Number 10 October 2001

Aspects of plant geography

S. D. Muller and P. J. H. Richard: Post-glacial vegetation migration in conterminous Montréal Lowlands, southern Québec 1169

C.P. Davies and P. L. Fall: Modern pollen precipitation from an elevational transect in central Jordan and its relationship to vegetation 1195

A. Burke: Determinants of inselberg floras in arid Nama Karoo landscapes 1211

J. L. Walck, J. M. Baskin and C. C. Baskin: Why is *Solidago shortii* narrowly endemic and *S. altissima* geographically widespread? A comprehensive comparative study of biological traits 1221

Aspects of animal geography

S. De Grave: Biogeography of Indo-Pacific Pontoniinae (Crustacea, Decapoda): a PAE analysis 1239

A. I. Kafanov and I. V. Volvenko: Ichthyofaunistic biogeography of the Japan (East) Sea: the comparison of various rank taxa for zoning 1255

M. Denoël, R. Duguet, G. Dzukic, M. Kalezic and S. Mazzotti: Biogeography and ecology of paedomorphosis in *Triturus alpestris* (Amphibia, Caudata) 1271

A. Ruggiero: Size and shape of the geographical ranges of Andean passerine birds: spatial patterns in environmental resistance and anisotropy 1281

Book Review 1295

Volume 28 Numbers 11/12 November/December 2001

Special Issue

Long Island, Papua New Guinea: a nested pair of colonization sequences

I. W. B. Thornton: Colonization of an island volcano, Long Island, Papua New Guinea, and an emergent island, Motmot, in its caldera lake. I. General introduction 1299

R. D. Harrison, R. Banka, I. W. B. Thornton, M. Shanahan and R. Yamuna: Colonizsation of an island volcano, Long Island, Papua New Guinea, and an emergent island, Motmot, in its caldera lake. II. The vascular flora 1311

C. Schipper, M. Shanahan, S. Cook and I. W. B. Thornton: Colonization of an island volcano, Long Island, Papua New Guinea, and an emergent island, Motmot, in its caldera lake. III. Colonization by birds 1339

S. Cook, R. Singidan and I. W. B. Thornton: Colonization of an island volcano, Long Island, Papua New Guinea, and an emergent island, Motmot, in its caldera lake. IV. Colonization by non-avian vertebrates 1353

M. Shanahan, R. D. Harrison, R. Yamuna, W. Boen and I. W. B. Thornton: Colonization of an island volcano, Long Island, Papua New Guinea, and an emergent island, Motmot, in its caldera lake. V. Colonization by figs (*Ficus* spp.), their dispersers and pollinators 1365

J. S. Edwards and I. W. B. Thornton: Colonization of an island volcano, Long Island, Papua New Guinea, and an emergent island, Motmot, in its caldera lake. VI. The Pioneer arthropod community of Motmot 1379

I. W. B. Thornton, S. Cook, J. S. Edwards, R. D. Harrison, C. Schipper, M. Shanahan, R. Singadan and R. Yamuna: Colonization of an island volcano, Long Island, Papua New Guinea, and an emergent island, Motmot, in its caldera lake. VII. Overview and discussion 1389

Special Research Paper

A. Choudhury and T. A. Dick: Sturgeons (Chondrostei: Acipenseridae) and their metazoan parasites: patterns and processes in historical biogeography 1411

Book Reviews 1441

Author Index 1445
